PROJECTS

Drishti *(Python, PostgreSQL, Scikit-Learn, Streamlit, Supabase)* GitHub | Streamlit

- Developed an end-to-end real-time river and drain monitoring platform with authentication.
- Implemented Isolation Forest-based anomaly detection for automated alert generation on time-series data.
- Built an interactive analytics dashboard with a sensor map, historical data and policy simulation; along with seamless and structured management of alerts and issues.

EXTRACURRICULAR ACTIVITIES

Google Developer Group on Campus NSUT – *DSA Department Member (10/2025 – Present)*

- Collaborate with a team to strengthen DSA skills through regular problem-solving and peer discussions.
- Contribute to planning and execution of community events.
- Actively participate in knowledge-sharing sessions.

ANANT (Mathematics Club of VIS) – *President (2024 – 2025)*

- Led the core team in organising 5-6 competitions, each engaging ~50 participants, and 2-3 academic events, engaging 100s of students.
- Coordinated planning and execution throughout the year.
- Oversaw the publication of a quarterly mathematics magazine with attention to detail.

Awarded the title of "Computer Wizard" – *Batch of 2025, VIS*
